

LUB 15-20

Natural and synthetic base fatliquor for any kind of white quality leathers

SPECIFICATIONS

Composition	Natural sulphited oil more synthetic.
Appearance	Thick, pale amber coloured liquid.
Active substance	Approx. 70%
pH (10% solution)	Approx. 7.0
Tanning bath stability	Very good.
Light fastness	Optimum.

PROPERTIES

LUB 15-20 give a exceptional lubricant effect. This property is very interesting in suede and nubuck articles.

APPLICATION

LUB 15-20 can be used as a fatliquor for those articles in which a high softening effect is required such as: upholstery leathers, clothing nappa, nubuck, suede, and nappa shoe uppers...Any kind of leather which must be dry drummed.

It may be applied in combination with other sulphited or crude oils in the main fatliquor. We recommend as well using it in chrome retanning pre-fatliquor, emulsified with Water at 50°C 1:3, so it has high stability in the presence of electrolytes.

RECOMMENDATIONS

Lambskins and goatskins for suede (In pre-fatliquor prior to neutralization)
2.0-4.0% LUB 15-20

Nubuck : 1.0-3.0% LUB 15-20

PACKAGING

120 Kg plactic drum and 1000 Kg IBC

Version 0001 – February 2017
